

## CAPABILITY STATEMENT

### CORE COMPETENCIES

---

SECON-DELTA has a distinguished and proven track record in designing, implementing, and supporting IT infrastructures. Our expertise spans desktop, server, data center, network infrastructure, and cyber defense capabilities, ensuring reliable and secure technology solutions for mission-critical operations.

**Why choose us?** We have a unique ability to quickly evaluate an organization's mission needs and deliver both tactical and strategic solutions that enhance system usability, management, and security. Our team is the missing piece that can strengthen your operational structure, bringing efficiency and innovation to your IT framework. Our consultants hold clearances up to Top-Secret level with SCI access based upon Fullscope, CI and/or Lifestyle polygraphs. **We are ready and equipped for immediate deployment (OCONUS/CONUS).**

- System Development Life Cycle
- System installation & maintenance
- Configuration management
- Risk Management Framework
- Incident Response
- Network Virtualization

### PAST PERFORMANCE

---

SECON-DELTA delivers security architecture support for the Department of Defense, assisting DoD and Intelligence Community agencies in meeting their incident response mission requirements. Our expertise includes system engineering, network engineering, risk management, testing, ongoing maintenance, and global deployment.

- National Security Agency
- Defense Intelligence Agency
- Central Intelligence Agency
- Department of Defense
- Federal Bureau of Investigations
- Baltimore Office of Information Technology

### ABOUT US

---

**SECON-DELTA** is a Service-Disabled Veteran-Owned Small Business (SDVOSB) dedicated to strengthening our government's technology infrastructure. We provide essential expertise in developing, testing, integrating, and operating mission-critical systems, as well as delivering advanced data analytics to support government and commercial sector needs. Our commitment is to be the trusted partner in securing and optimizing mission-driven technology solutions. Please visit our website to learn more.
